

6-SLIDE CAROUSEL · SWIPE →

The primitive we couldn't wait for.

Token-2022 confidential transfers were the answer. Then they weren't.

TIMELINE

2023	Token-2022 CT shipped
Apr 2025	audit findings
Jun 2025	disabled on mainnet
May 2026	still offline

THE DECISION TREE

What do you do?

- Wait?
- Move to L2?
- Move to EVM?
- Build the workaround?

MAGICBLOCK'S PRIVATE PAYMENTS

Encrypted message queue.
TEE–cranked decrypt + settle.
Amount sealed at the rail.
3–30s jitter for timing privacy.

In production. Today.

WHAT WE ADDED ON TOP

- Treasury PDA custody
- `authorize_disburse` compliance gate
- 6h attestation freshness window
- Per-employee + daily caps
- Voucher ledger on `nilDB`

THE RESULT

USDC payroll. Private at the rail. Compliant at the gate.

Devnet today.

Mainnet Q3 2026.
